psychology is of interest to academics from many fields as well as to the thousands of academic and clinical psychologists and general public who can help but be interested in learning more about why humans think and behave as they do this award winning twelve volume reference covers every aspect of the ever fascinating discipline of psychology and represents the most current knowledge in the field this ten year revision now covers discoveries based in neuroscience clinical psychology s new interest in evidence based practice and mindfulness and new findings in social developmental and forensic psychology

this book reflects the considerable appeal of the anthropocene and the way it stimulates new discussions and ideas for reimagining sustainability and its place in education in these precarious times the authors explore these new imaginings for sustainability using varying theoretical perspectives in order to consider innovative ways of engaging with concepts that are now influencing the field of sustainability and education through their theoretical analysis research and field work the authors explore novel approaches to designing sustainability and sustainability education these approaches although diverse in focus all highlight the complex interdependencies of the human and more than human world and by unpacking binaries such as human nature nature culture subject object and de centring the human expose the complexities of an entangled human nature relation that are shaping our understanding of sustainability these messy relations challenge the well versed mantras of anthropocentric exceptionalism in sustainability and sustainability education and offer new questions rather than answers for researchers educators and practitioners to explore as working with new theoretical lenses is not always easy this book also highlights the authors methods for approaching these ideas and imaginings

thesis m a from the year 2007 in the subject american studies literature grade 2 00 university of göttingen language english abstract let them be sea captains if you will margaret fuller stated in her main work woman in the nineteenth century woman 346 although even nowadays there may be only few female sea captains the quoted statement would hardly provoke anyone at least not someone in our contemporary western culture however when regarded in its historical context two questions arise firstly what underlying gender concept encouraged fuller to make such a statement in a time of excessive gender polarization bomarito vol2 1 a time in which the ideal of domesticity and republican motherhood freedman 25 determined the role of woman and secondly how did antebellum american society react to such statements the first question will be the main issue of part iii the main part of my work i will begin with fuller s general gender concept that involves ideas of androgyny and the degendering davis 182 of language next the major influences on her concept namely those of transcendentalism with special consideration of emerson goethe fourier and swedenborg will be dealt with lastly i will consider how fuller applied her concept to the specific fields outlined in chapter ii that is marriage education and economy i will concentrate on her main work woman in the nineteenth century because fuller describes her gender concept there in most detail whereas her other works such as summer on the lakes do not contribute much additional information that is of special significance for the understanding of her gender concept this is especially true in the case of her memoirs which was heavily edited and censored by emerson and others it rather distorted fuller s reputation as urbanski states 5 therefore i will only occasionally refer to them whenever they provide further information that is relevant to my topic regarding the second question i will illustrate the

historical and cultural background first against which fuller placed her gender concept in order to clarify why her idea of woman w 305 was considered provoking and unconventional in antebellum america i will deal with the traditional gender concept along with its ideals such as femininity republican motherhood and domesticity then i will describe the effect this concept had on marriage evangelical movements education and economy and also with what is considered the initiation of the first women s rights movement in america the seneca falls convention of 1848
